## Linear Regression Training

LATEST SUBMISSION GRADE

100%

1. In linear regression, the noise can best be characterized by :

1 / 1 point

- ☐ we multiply small values to the linear model
- ☒ we add small values to the linear model

Correct

correct

2. An application of linear regression can be

1 / 1 point

- ☒ Predicting housing prices (y) giving the size of the house (x)
- ☐ classify house as over priced

Correct

correct
